PIONEERING NATURAL LANGUAGE GENERATION TO ENHANCE BUSINESS EFFICIENCY

Alexander Siebert, Founder & Chief Executive Officer | siebert@retresco.de

PIONEERING NATURAL LANGUAGE GENERATION TO ENHANCE BUSINESS EFFICIENCY

retresco empowers companies to automatically generate high-quality texts based on data. As a pioneer in the field of AI-based language technologies, the Berlin-based tech company has been developing cross-industry solutions for the efficient and future-oriented automation of business processes since 2008.

Founded in Berlin 2008

70+ team members

120+ B2B customers

Customers in more than 8 countries

Solutions in multiple languages (DE, EN, IT, FR, NL e.g.)

MORE THAN 120 CUSTOMERS OPTIMISE THEIR BUSINESSES WITH SOLUTIONS BY RETRESCO

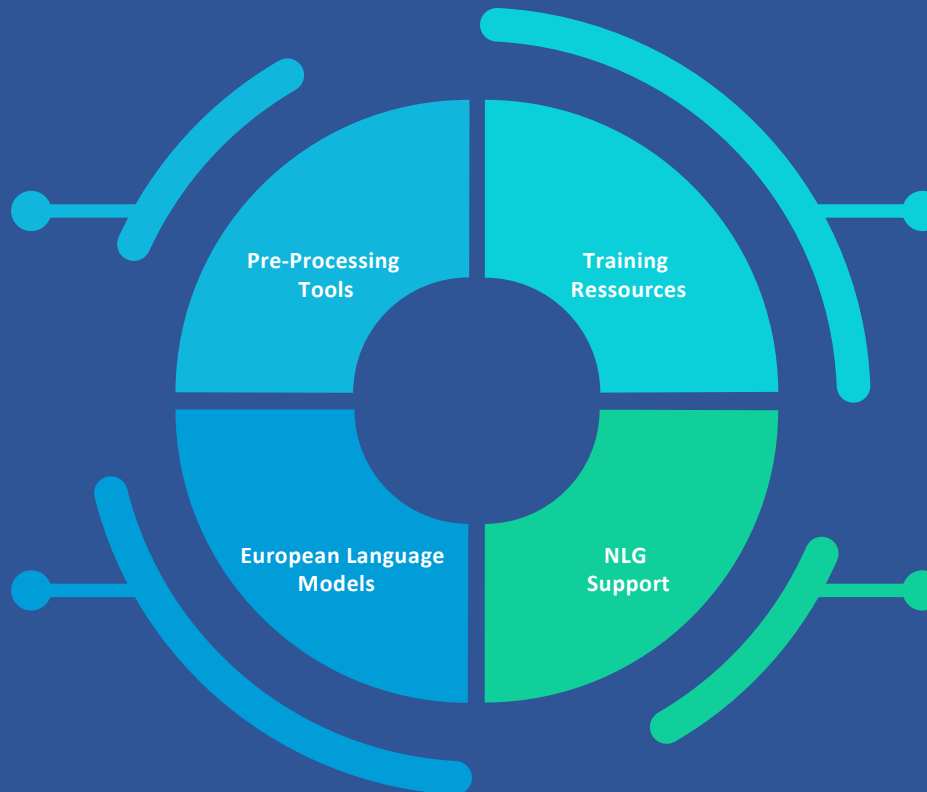

Pre-Processing Tools

Language agnostic processing pipelines (e.g. parsing) to support more European languages

European Language Models

Open Source European Language Models (“GPT-EU” from EU for all languages) would be a huge scientific and industrial break through for Europe.
(OR hardware support for ML in exchange for free license)

Training Ressources

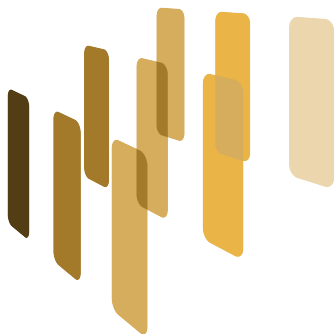

Language data sets (voice&text), different usage channels (chat, dialogue, mail), annotated data sets (syntactic structures)

retresco

How could Retresco support the ELG

Support the scientific and academic world with our NLG technology (e.g. corpus generation, generation of training sets, etc.)

European Language Grid - *the primary platform for LT in Europe*

Thank you!

The European Language Grid has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement № 825627 (ELG).
