

webLyzard technology

A stylized white lizard graphic is positioned between the words 'Lyzard' and 'technology'. The lizard is depicted in profile, facing right, with its body curving upwards and its tail extending downwards. Its head is positioned near the 'y' in 'Lyzard', and its tail is near the 't' in 'technology'. The lizard's body is a solid white line, and its head features small, stylized eyes and a mouth.

webLyzard Value Proposition

Big data platform with a focus on brand communication and success metrics, news data value chains and semantic search for corporate publishing.

Interest in the European Language Grid

Lexical Resources and functional services, particularly in languages currently not supported by webLyzard's NLP Stack - e.g. Eastern European Languages; partner organisations for research submissions and joint client acquisition.

Services for the European Language Grid

Visualisation engine to render language technology output, in the form of embeddable widgets or fully integrated into a visual analytics dashboard.
