Employees: 19 (40% deaf)

Vision: We make digital content barrier free for deaf people, worldwide!

Avatar-based sign language translations

Developed a semi automatic system for translation into sign language → SiMax

- Duration: March 2021 – February 2022
- **Make web-texts easier to comprehend for deaf people**
 - » Produce sign language encyclopedia
 - » Develop a WebApp implemented on a company web-server
 - » Display sign language (DGS & OEGS) explanation adjacent to complicated terms in a text
- Free basic version on ELG

This is a sample text for a SignLookup application. Some-where in the text the term "stay healthy" appears highlighted. If you click on it, a window opens and the term is explained in sign language.
