Mozilla's Contributions to European Multilingual Information Society

Why?

What?

Why?

Principle 2

The internet is a
GLOBAL PUBLIC
resource that must remain
open and **accessible**.

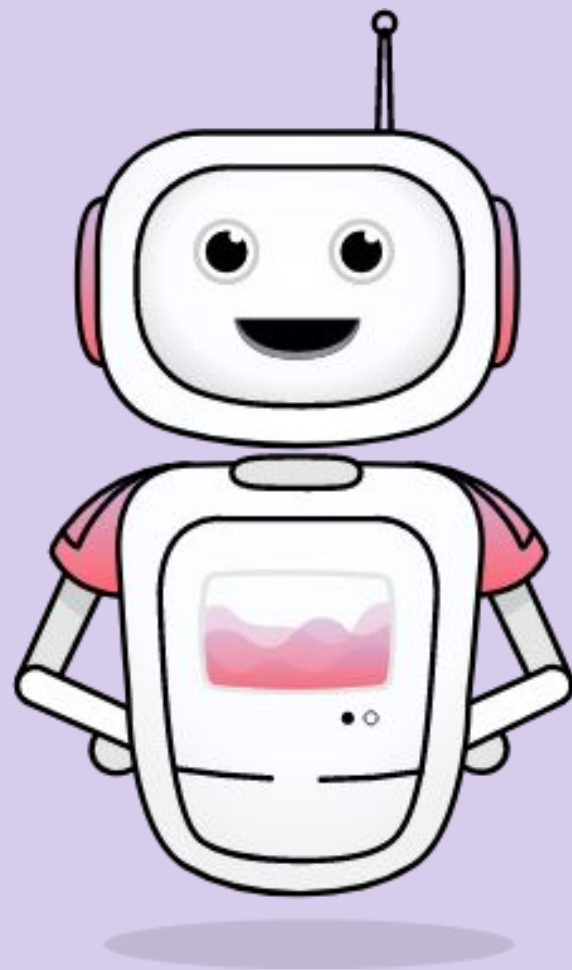

Principle 7

Free and
OPEN SOURCE software
promotes the development of the
internet as a **public resource**.

What?

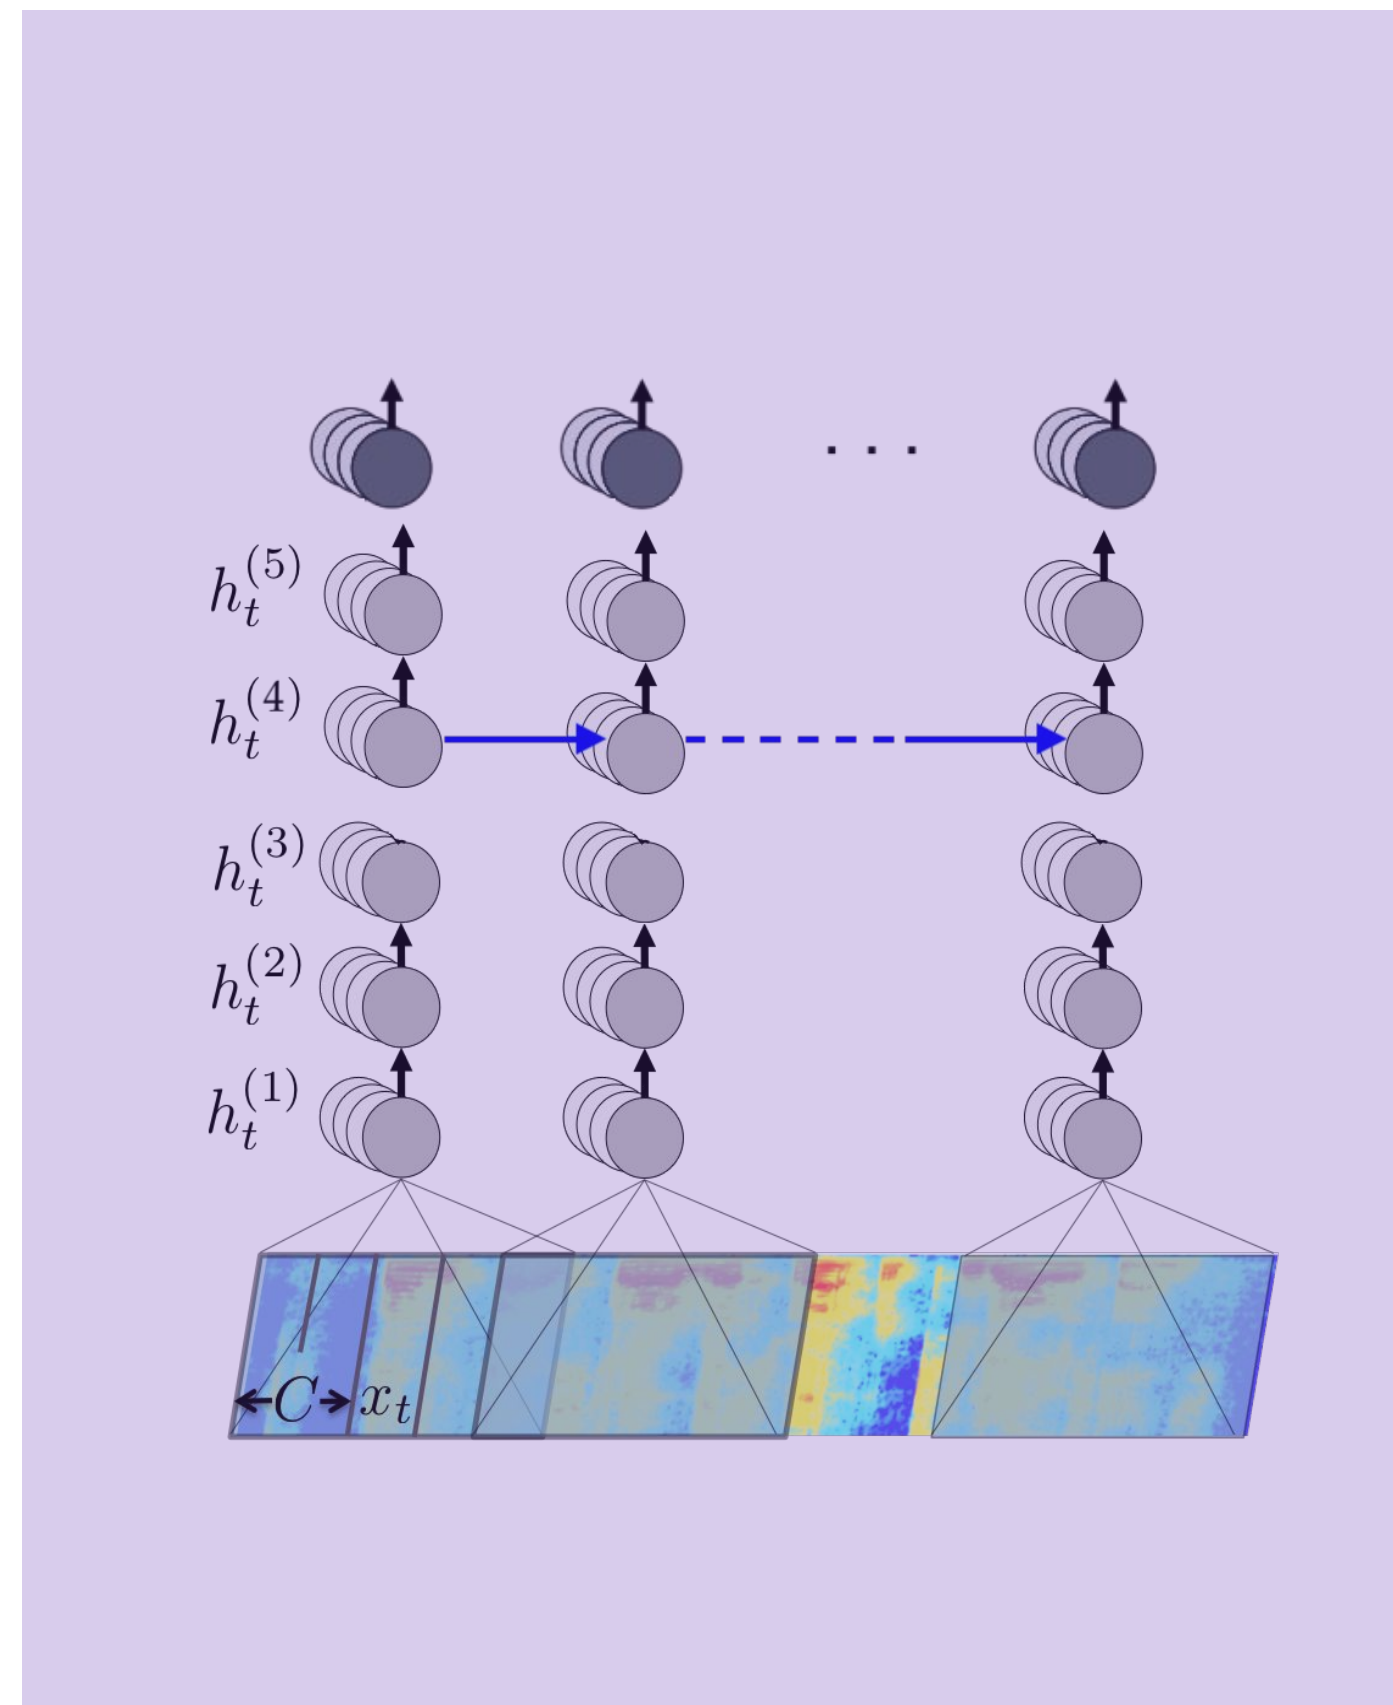

Common Voice

Common Voice is a platform to **collect, validate,** and **distribute** multilingual speech corpora that are **open**

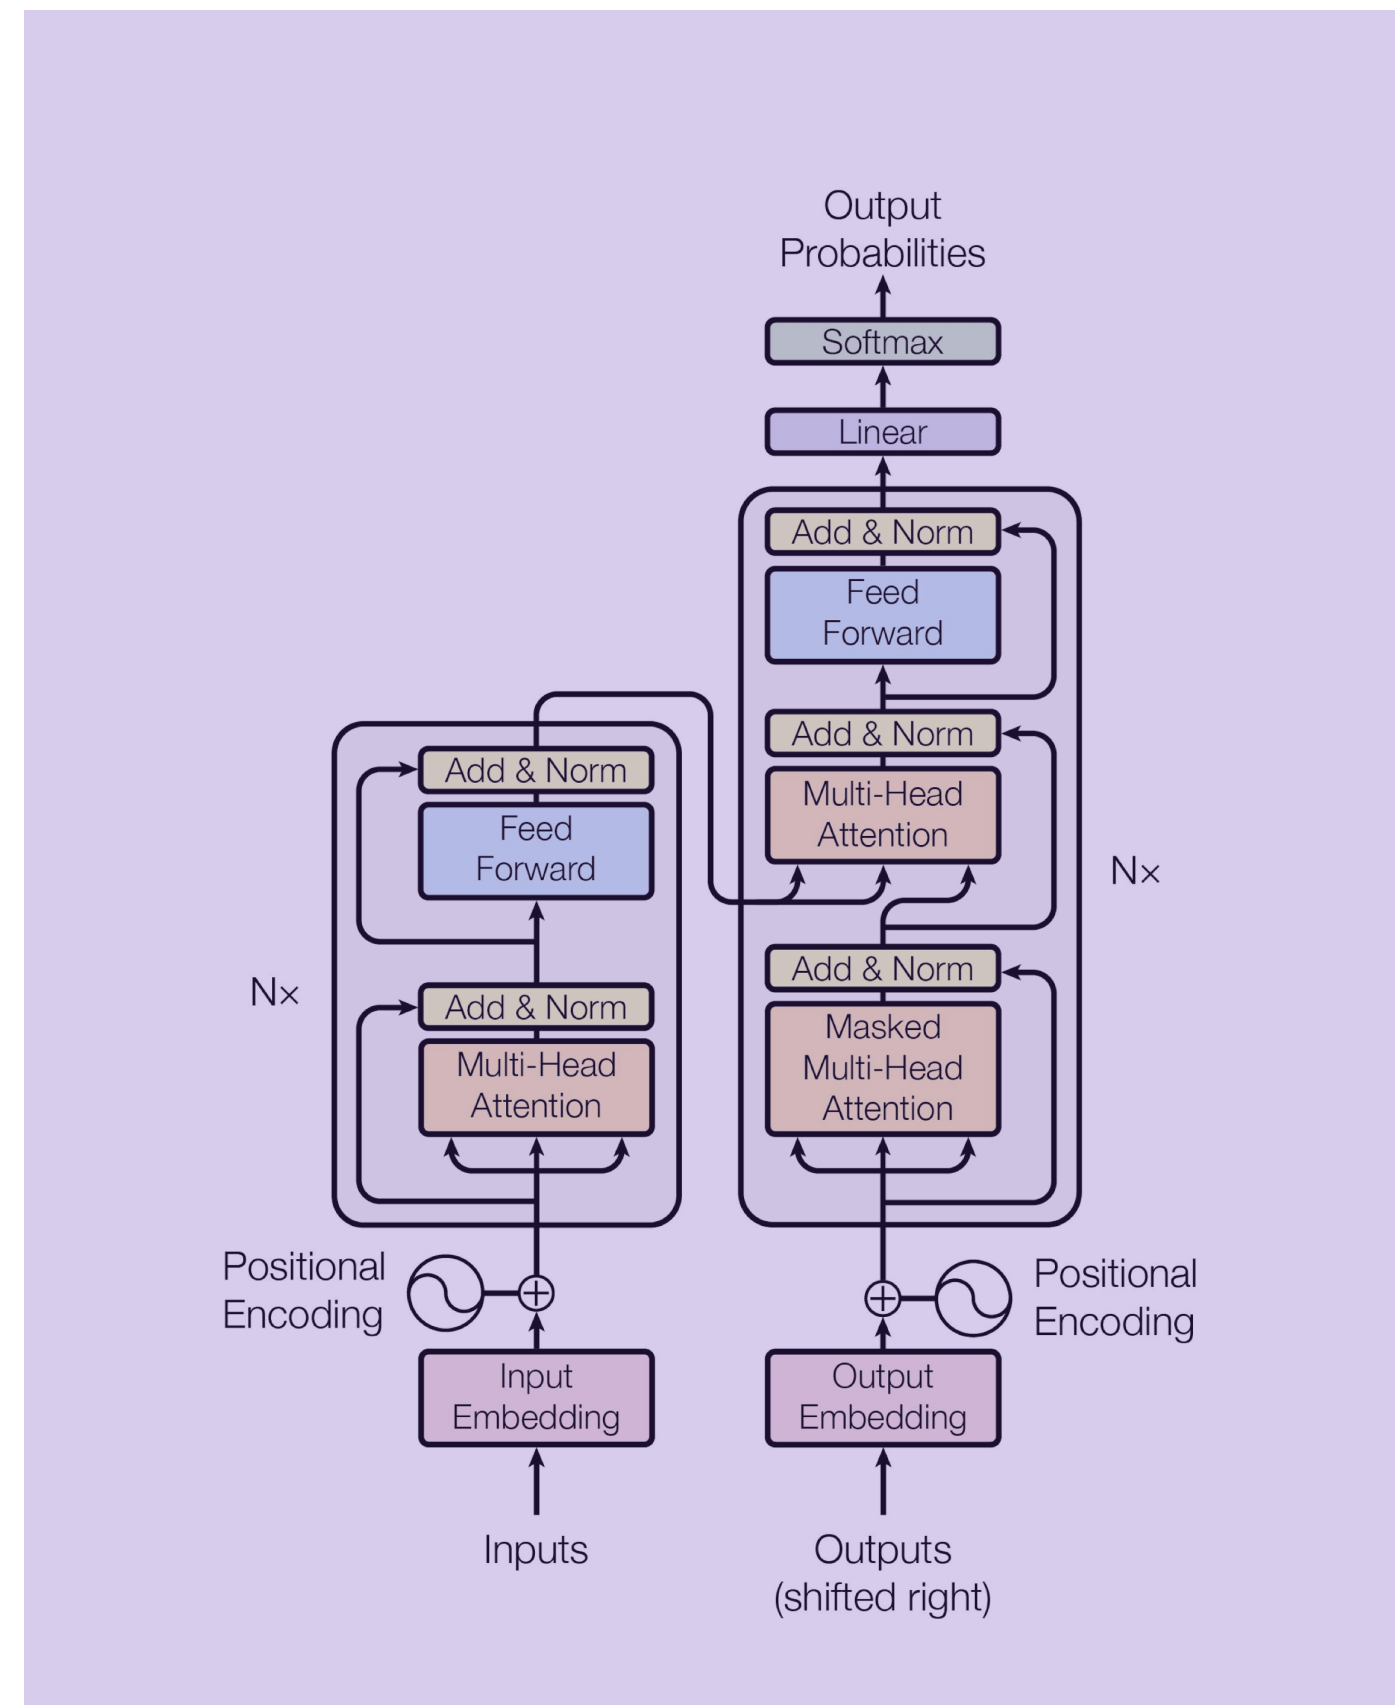

Deep Speech

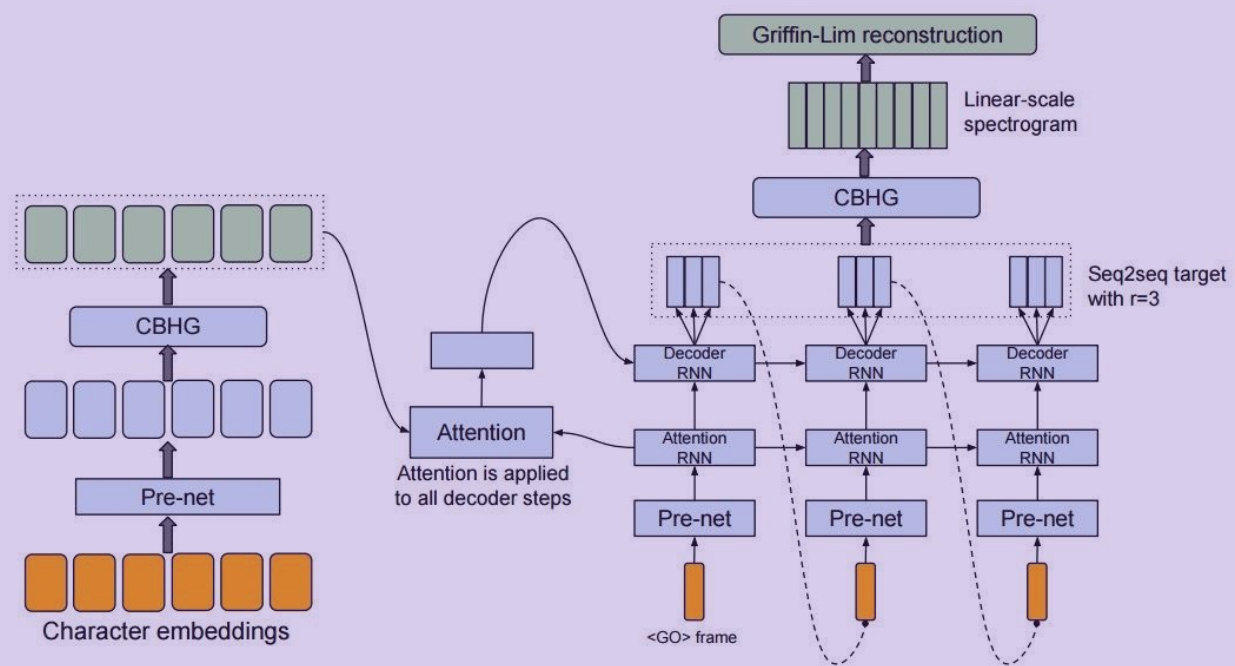

Deep Speech is a **multilingual**
simple, open, and
ubiquitous
speech recognition engine
with **open** models

Bergamot

Bergamot is a **fast, open,** and **local** neural machine translation engine with **open** models and code

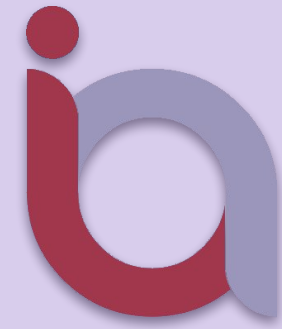

Mozilla TTS

Mozilla TTS is an **open, high quality** multilingual speech to text engine with **open** models

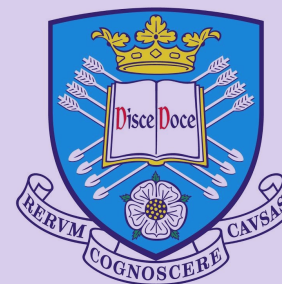

We are also **partnering** with many different **organizations** and would love to expand our network!
