ELE Dashboard

A living, dynamic LT observatory and DLE monitor

ELE dashboard

- A web-based interactive dashboard developed by ELE as part of the ELG Platform which exposes the contents of the ELG database as interactive visuals dynamically created by user queries

  - The ELG currently includes >12,000 LRTs, including:

    - ELG's own resources

    - Records harvested from other LT repositories

    - ELE experts' contributions

- Accessible at: https://live.european-language-grid.eu/catalogue/dashboard

- Why a dashboard? It provides

  - an easy-to-use mechanism for exposing and monitoring the technological and contextual factors that contribute to DLE

  - an updatable and comparable measurement of the level of LT support and provision that each European language enjoys

One Platform for all European Language Technologies

Discover, try out, use and download LT services and resources for all European languages.

Browse ELG and find the LT services, resources, developers and providers you are looking for.
